Reference number: 0003/11

**Subject: Chi-X publishes Operating Rules, Operating Rules: Procedures and a Feedback Statement**

Chi-X Australia (Chi-X) has today published:

- the finalised versions of its Operating Rules (rules) and Operating Rules: Procedures (procedures); and
- a Feedback Statement on the consultation undertaken in respect of the rules and procedures.

Chi-X published draft rules and procedures in early March 2011 (see Compliance Notices [0001/11](#) and [0002/11](#)) and consulted with prospective participants, trade bodies and other stakeholders over the following 4-6 weeks. The rules and procedures were finalised on 13 April 2011 and provided to the Minister as part of the application by Chi-X for an Australian Market Licence. The Minister granted the licence on 4 May 2011 being satisfied that, among other things, Chi-X had adequate rules and procedures.

The Feedback Statement outlines the key issues and common themes in the responses received during the consultation process and the subsequent changes to the consultation drafts of the rules and procedures.
