

Technical Notice

Monday 4th February 2019

Reference Number: 0002/19

Subject: Chi-X Australia Business Continuity Plan (BCP) Event - 2nd March 2019

Chi-X will be performing a BCP event to failover from Primary instances in Equinix SY2 data centre to Backup instances in Global Switch data centre.

Please note this BCP event will only be relevant to those Chi-X participants and vendors who have a presence at Global Switch.

This BCP event is planned for **Saturday 2nd March 2019** between approximately **08:00 and 11:00**. Timetable details will be provided in a forthcoming technical notice.

Scope of the BCP Event

The BCP event will focus on the failover of components from the Primary data centre (Equinix) to the Backup data centre (Global Switch), including:

- backend Matching Engine;
- order entry / execution connections (FIX based connections);
- Market Data connections. **Please be aware that all multicast Market Data clients will receive market data flow during the tests on Saturday 2nd March and will therefore need to ensure that their systems handle/ignore the market data flow accordingly;**
- allowance of both order matching and trade reporting;
- testing will be limited to Chi-X trading systems and will not involve trades being sent to CHES;
- all orders and trades processed during the test will be deleted from Chi-X systems at the conclusion of the test in readiness for normal trading on Monday 4th March.

Prerequisites for the BCP Event

Participants and vendors who have deployments located in the Backup data centre in Global Switch are encouraged to take part in this BCP event as it forms part of the overall important business continuity arrangements.

Please **submit your request** for BCP participation by **Friday 15th February** including:

1. which FIX based and Market Data connections you have configured in the Backup data centre you would like to test with.
All other connections will be disabled during the test except Multicast Market Data broadcasts;
2. the Contact Name, Phone number and Email address of your primary contact during the test.

Please contact the **Chi-X Market Operations team** with any queries.
