

Technical Notice

Tuesday 24th March, 2020

Reference Number: 0001/20

Subject: Chi-X Trading System – Version 6.2 Technical Specifications

Chi-X has published today the technical specifications for Version 6.2 of the Chi-X Trading System. The specifications can be accessed on the [Client Forum](#) and contain mark-ups in yellow.

The Functionality Scope of Version 6.2 includes:

- A new optional function for COG (Cross session Order Gateway) sessions that enables the cancellation off-market trade reports,
- A new optional MEQSE (Minimum Execution Quantity – Single Execution) functionality for hidden MOC (Market on Close) orders,
- The removal of the optional visible qualifier for MOC orders pursuant to the cessation of visible MOC orders*.

Upgrade Schedule:

- PTE (Participant Test Environment) will be upgraded over the weekend of **28th March 2020**. Please note PTE will not be available on 28th and 29th March.
- Production will be upgraded to Version 6.2 on Saturday 2nd May 2020 in readiness for Go-Live **on Monday 4th May 2020**.

Please note that the updates in Version 6.2 only relate to optional functionality.

*The amendments to the relevant Operating Rules: Procedures will be published shortly.

Please contact the [Chi-X Market Operations team](#) with any queries.
