

Talaria Asset Management launches two new global equity active ETFs on Chi-X

Chi-X Australia is delighted to welcome Talaria Asset Management's Global Equity ETFs - TLRA and TLRH, to the exchange.

Talaria Global Equity Fund (Managed Fund) (Chi-X: TLRA) and Talaria Global Equity Fund Currency Hedged (Managed Fund) (Chi-X: TLRH) seek to capture the majority of the market's gains while insulating investors from periods of weakness, enhancing the certainty of returns.

The active ETFs will be available as ticker codes TLRA, and TLRH for the currency hedged version, and will offer Australian investors access to a portfolio of up to 45 large, globally listed companies, leveraging Talaria's 120 years of investment experience.

Chi-X Australia CEO, Vic Jokovic, said: "We're excited to be able to offer Talaria Asset Management's deep expertise in global equities on Chi-X. Investors are increasingly searching for reliable, high-income opportunities, and by offering TLRA and TLRH on Chi-X, more investors will be able to trade two new innovative products.

Talaria Asset Management CEO, Jamie Mead, said: "Launching our successful Global Equity strategies on the Chi-X exchange is significant for all those Australians seeking access to active global equity strategies designed to deliver strong income to their portfolio.

"Talaria's bottom-up research focus, combined with our 16-year track record of delivering consistent income with relatively low market risk, will enable our active ETFs to truly stand out in the market.

"Over the past few years, our business has seen significant growth and this marks another chapter in our journey.

TLRA and TLRH will commence trading on Chi-X on Thursday 11th November and will be available through Chi-X market participants and supporting Australian stockbrokers.
